

# CALIFORNIA DEPARTMENT OF MOTOR VEHICLES

## **Low-Speed Vehicles: Modified or Altered Vehicles**

21254. A motor vehicle that was originally designated as a low-speed vehicle and that has been modified or altered to exceed 25 miles per hour shall not qualify for the relaxed federal Motor Vehicle Safety Standards established for low-speed vehicles and instead shall meet all federal Motor Vehicle Safety Standards for a passenger vehicle.

Added Sec. 6, Ch. 140, Stats. 1999. Effective January 1, 2000.

**All Planet-EV Carts are set to accelerate not more than 25mph, thus they are classified as Low Speed Vehicles.**

*Want to go faster? It would not be appropriate for us to set the cart speed any faster as it would change the classification and would then not be road legal. If you illegally modify a LSV to go faster you will be breaking the law. Use our carts to save the Earth and your automobile to satisfy your need for speed.*

*Thank You,  
Planet-EV*
